

Feedback and Complaints Procedure

Parents and Carers

The school values of respect, integrity and kindness underpin this procedure. Positive relationships within the school community create the conditions to foster the best possible outcomes for our students. When any member of the school community feels dissatisfied with the service or actions of our school, it is important that this is respected, and the grievance raised and responded to in a way that addresses the immediate concern, but also supports the development and maintenance of good relationships.

This procedure outlines our response in the event of a parent/carer concern or complaint.

This procedure does not apply to:

- Employee disputes, grievances and conduct are managed through the [complaint resolution for employees policy \(staff login required\)](#) and [procedures \(staff login required\)](#)
- non-departmental employees
- child protections matters.

In line with the department's policy, in the event of a complaint we will:

- make every reasonable effort to resolve concerns or complaints in a timely and effective manner
- identify and discuss the possible courses of action that could be taken to resolve the complaint and the timeframe for this to occur
- consider relevant legislation, departmental policy and guidelines and school processes
- ensure that staff are familiar with the department's complaints policy and have access to appropriate training
- consider any school based improvements or system improvements at a broader level that may reduce the likelihood of similar complaints.

In the event of raising a complaint, please consider the following:

- clearly identify the issue and document your concerns
- be as specific and factual as you can
- identify possible and reasonable solutions to the concern
- allow appropriate time for the issue to be resolved
- bringing a support person to the meeting if required
- communicate with the school if you feel the issue has not been resolved satisfactorily.
